CAS

# in Sex- and Gender-Specific Medicine

Flexible start: Begin with any module

# Join Us in Advancing Gender-Responsive Healthcare!

- ➔ Get access to the most recent scientific findings in sex- and gender-specific medicine.
- ➔ 12 modules covering all medical disciplines.
- ➔ All modules are CME-accredited and can be attended individually.
- ➔ All modules are hybrid, participation on site or online.
- ➔ CAS can be completed in one or two years.  
Requirements: 4 compulsory modules, at least 5 elective modules, final written assignment.
- ➔ Admission for all with a university degree at master level in medicine or a medically related subject and professional experience (assessment sur dossier).
- ➔ CAS start possible at any time.
